SUMMARY

- Rigorous & data-driven operations professional with experience steering key sections of a €125.19 million capital project
- Skilled in pricing coordination, vendor management & billing accuracy, translating operational data into structured trackers, dashboards & decision support for cross-functional stakeholders
- Currently pursuing a Master in Management, bringing strong analytical rigour, autonomy & a keen interest in the Fashion & Luxury sector to a Business Analyst role

EDUCATION

Emlyon Business School

2025 - 2027

Master in Management (MiM) - 1st Year | Specialisation in "Business Analytics & Consulting"

France

Relevant coursework: Business Analytics, Strategic Consulting, Financial Analysis, Retail & Luxury Management, Data-Driven Decision-Making

Indian Institute of Engineering Science & Technology, Shibpur

May 2023

Bachelor of Technology | Specialisation in "Mechanical Engineering" | CGPA: 8.93/10

India

Relevant coursework: Project Management, Data Science, Quality Control, Business Analytics, Economics and Financial Accounting

PROFESSIONAL EXPERIENCE

JINDAL STAINLESS LIMITED | India's Largest Stainless Steel Manufacturer

Jul 2023 - Jun 2026

Associate Manager, Operations | 35 months

India

- Spearheaded end-to-end operations planning & execution for a €125.19 million capital expansion project, coordinating pricing, procurement & delivery timelines across the package
- Piloted the price-fixation & procurement process with 13+ vendors, owning negotiations, purchase-order accuracy & on-time supplier delivery
- Built & maintained structured tracking systems (specification mapping, material coding, inventory checks), strengthening data reliability across the department
- Owned end-to-end billing worth € 90k-180k monthly, preparing reports & reconciliation tables for senior stakeholders
- Led a 15-member team through installation & commissioning, coordinating design reviews, execution schedules & cross-functional resolution of bottlenecks
- Revived an RMHS package delayed by nearly a year through tracking & stakeholder follow-up, propelling it ahead of parallel work-streams
- Conducted periodic compliance & quality checks against site protocols, strengthening process discipline
- Recognised by senior management for driving efficient project planning, precision & execution under tight deadlines
