SUMMARY

- Rigorous & data-driven Operations professional with hands-on experience steering end-to-end execution of a €125.19 million capital expansion project — planning, vendor coordination & delivery
- Skilled in building structured data-tracking systems & dashboards that strengthen process reliability, support automation initiatives & enable decision-making for cross-functional stakeholders
- Currently pursuing a Master in Management, bringing strong analytical rigour, problem-solving & a keen interest in efficient, sustainable last-mile logistics to an Operations Integration Intern role

EDUCATION

Emlyon Business School 2025 - 2027

Master in Management (MiM) - 1st Year | Specialisation in "Operations & Business Analytics" France

Relevant coursework: Business Analytics, Strategic Consulting, Financial Analysis, Data-Driven Decision-Making

Indian Institute of Engineering Science & Technology, Shibpur May 2023

Bachelor of Technology | Specialisation in "Mechanical Engineering" | CGPA: 8.93/10 India

Relevant coursework: Project Management, Operations Management, Data Science, Quality Control, Business Analytics, Economics & Financial Accounting

PROFESSIONAL EXPERIENCE

JINDAL STAINLESS LIMITED | India's Largest Stainless Steel Manufacturer Jul 2023 - Jun 2026

Associate Manager, Operations | 35 months India

- Spearheaded end-to-end operations planning & execution for a €125.19 million capital expansion project, coordinating scheduling, procurement & delivery timelines across the package
- Piloted the vendor & procurement management process with 13+ suppliers, owning negotiations, purchase-order accuracy & on-time delivery performance
- Engineered & maintained structured data-tracking systems (specification mapping, material coding, inventory checks), strengthening process reliability & supporting automation initiatives
- Owned end-to-end billing worth €90k-180k monthly, preparing accuracy reports & reconciliation tables for senior stakeholders
- Led a 15-member team through installation & commissioning, coordinating execution schedules, design reviews & cross-functional resolution of operational bottlenecks
- Revived a project package delayed by nearly a year through rigorous tracking & consistent stakeholder follow-up, propelling it ahead of parallel work-streams
- Conducted periodic compliance, safety & quality checks against site protocols, strengthening process discipline & operational excellence
- Recognised by senior management for driving efficient project planning, precision & execution under tight deadlines

LANGUAGES AND SKILLS

Languages: English - Fluent (C2) | French - A2 | Hindi & Bengali - Native

IT Skills: Microsoft Excel (Advanced) | PowerPoint | SAP | Data Analysis & Reporting | Dashboards | Python (Basics)

Certifications: Python: Basics to Data Structures (2021)

Interpersonal Skills: Stakeholder Management | Cross-Functional Coordination | Problem-Solving | Attention to Detail | Analytical Thinking | Process Improvement | Adaptability | Team Management

AWARDS AND RECOGNITION

- Achieved Global Rank 9th & National Rank 3rd, ASME Human Powered Vehicle Challenge 2020, leading a cross-functional design team
- Qualified as National Finalist, L&T TECHgium Engineering Contest (5th Edition), 2022
- Co-authored a peer-reviewed research chapter on Cascade Refrigeration Systems, published by Springer Nature & ISHRAE Journal (2023)

INTERESTS & HOBBIES

- Cooking: Creative, hands-on exploration of recipes & cuisines - recreating home & restaurant-style dishes
- Badminton: Competitive player, enjoying the discipline & fast pace of the sport
- Design & Trends: Like following emerging product trends, designing & understanding technical assemblies
